“What a cool gift to give to dad, tell us about this.” – **Host, Jessica Abo**

“Isn’t this great, these are from Art.com, these are their metal prints, and they have canvas prints and wood prints as well but I really gravitated towards these for Father’s Day because I feel they are so sophisticated but masculine, so I blew up this picture of my daughter at the women’s march in D.C. and my husband was so proud of us that we went. These start at \$99 and up. You upload the photo and in three to five days they are ready to ship your gift.” – **Smart Shopping Expert, Trae Bodge**

“That’s amazing.” – **Host, Jessica Abo**
