Come on in!

painted paneling

White paint (Bit of Sugar by Behr) did wonders for the walls. "The change was instant," Amy says.

It made the entire room feel bigger, cleaner, and brighter.

art

Two colorful graphic prints—one of popcorn from art.com and one of retro bottle tops from Etsy—appeal to the kids but aren't juvenile.

rug

The colors and shapes in this showstopper of a rug by Novogratz inspired the palette and furniture picks for the entire room. The hues are reflected in the art and pillows, and the circles and curves in the coffee table and chair.

chair

"At first we thought it was a bit modern for our usual shabby-chic style,"

Amy says of the egg-style aniline leather chair from overstock.com. "But we love how it looks in the finished space, and it's comfy and cozy too."

Bonus: It swivels to face the TV or the sofa.
